DETAILED ACTION

Response to Arguments

Request for approval of drawing change dated on February 27, 2001 has been accepted by the examiner.

Applicant's arguments filed on March 21, 2002 have been fully considered but they are not persuasive. Applicant's argument "Mehta et al. does not disclose or suggest use of a handle." The chuck 40 is connected to a drive shaft 16, which can be used to carry the connected mesh basket and be placed about 2.5 cm above the center of the bottom of the container (col. 4, lines 43-55). Handle defined by Webster Dictionary, says a handle is a part that is designed especially to be grasped by the hand. Shaft 16 is in a cylindrical form that would be able to be grasped by a hand, therefore being structurally capable of performing the function of a handle.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims **8-24** are rejected under 35 U.S.C. 102(b) as being anticipated by Mehta et al. (USPN 4,856,909).

Mehta discloses a pharmacological dissolution apparatus that comprises: a cylindrical mesh basket with a handle and lid made of mesh; a lid with three fixing clips; a metal band around the open end of the basket; basket to be used with a paddle agitator, continuous flow cell, and rotating basket apparatus (abstract; figures 1-6; col. 1-2; col. 4, line 37 – col. 4, line 53; claims 1-10).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
